The Power to Surprise

Wherever you need to go...it's ready

The refreshed K-series truck from Kia is going to change the way you look at trucks. With greater utility and a level of refinement you would expect to find in only a passenger car, the K-series truck not only makes getting the job done easier, it lets you do it in comfort.

Designed for your needs

Space and comfort for you and the crew is vital to get the job done, and the double cab design of the K-series truck results in a super spacious cabin. The seats are designed to provide maximum comfort and support for people of all shapes and sizes, with seating for up to six occupants (double cabin). To minimize fatigue, the driver's seat features extra thick cushions in the seat back and bottom as well as adjustable lumbar support at the touch of a button. Full-cloth, extended sliding seats and 3-step headrests ensure that driving is a pleasure. The K-series' comfort extends to the ergonomic design of the crash pad and controls, clear and informative LED gauge cluster, and intuitive layout of the centre console and sound system. For organizing small miscellaneous items, the front centre seatback folds down to reveal a multi-functional console for practical storage, in addition to a storage space within the centre console. The rear seats also fold down to provide a second row cargo area.

Folding key

A new folding key with remote lock/unlock is just one of the new convenient touches that shows Kia's attention to detail.

K-series in detail

The K-series truck is simply head and shoulders above the pack. Its sufficient loading capacity, high levels of engine and brake performance, and multitude of convenience features and driver-focused refinements allow you to focus on the job at hand.
